Finding Abbreviated Journal Titles in PubMed

OPTION 1

In PubMed, go to the Advanced Search. Choose Journal from the dropdown menu. Click on Show Index List. Start to enter the journal title, and then select the correct one, and then hit Search.
Within the Results List, you will be able to see the Abbreviated Title.
OPTION 2

Possibly quicker, but you **MUST BE SURE TO USE ONLY THE NLM ABBREVIATIONS**

Use the link to “Journals in NCBI Databases” to search for the journal. This will bring up a record, and you then need to select the **NLM Title Abbreviation:**
